CITY OF BOSTON.

FIFTH ANNUAL REPORT

OF THE

BOARD OF FIRE COMMISSIONERS,

FOR THE YEAR ENDING APRIL 30, 1878.

Office of the Board of Fire Commissioners, City Hall,
Boston, June, 1878.

To the Honorable the Mayor and the City Council of the City of Boston: —

Gentlemen, — The undersigned Fire Commissioners have the honor herewith to present their fifth annual report for the year ending April 30, 1878, in which will be found a statement of its condition, the expenditures, the record of fires, losses, and other matters connected with the management of the department entrusted to their care and supervision.

Two changes in the membership of the Board have taken place during the year.

The term for which Commissioner Charles H. Allen was appointed terminated May 6, 1877, and the vacancy was filled by the nomination and confirmation of Mr. Henry W. Longley, on the 25th of the same month. March the 25th, 1878, Commissioner Greely S. Curtis resigned his office; the former Commissioner, Charles H. Allen, was nominated to fill the vacancy and confirmed on the 1st day of April ensuing, and they forthwith assumed the duties of their office.

The services of the department have been of the usual character; fortunately no fires of magnitude, with the single exception of the burning of a large furniture manufactory and

the surrounding structures in the Charlestown District, occurred within the city limits.

There has been no change in the organization of the department differing from the condition as shown in the last report.

The "Permanent" and several of the "Call" companies have been furnished with an extension ladder, known as the "Bangor Ladder;" its use has manifested its availability for fire service, permitting the reduction of the number of men of the several companies using them, thereby lessening the expenses in proportion to the reduction; the reduction is made only as vacancies occur, and as far as made has shown no want of efficiency, and the duty has been quite as well performed as heretofore.

The force of the department consists of: —

Permanent men	264	
Call men	349	
		613
Fire-Alarm branch	9	
Clerks	3	
Commissioners	3	
		15
Total		628

During the year petitions from the permanent and call members of the West Roxbury and Brighton Districts were received, asking to be paid the same amount as allowed to the Dorchester and Roxbury members. On analyzing the duties performed by the several companies composing the department, it was found that the alarms of fire in the Dorchester and West Roxbury Districts were about the same in number and less than one half of those of any other of the companies of the older call districts; the average duty of the last named being nearly equal, showing an average of 88 per cent. of the greatest response of any call company, while the Dorchester company's (less Engine 21) was but 32, West Roxbury 30, and Brighton 16, in the same ratio. In view of this showing the Board did not feel justified in granting the request of the call members as named in the petition, but recognized their claim to additional compensation; also that the permanent men should be paid the amount paid to those of the same grade in the call districts, and it seemed proper and just that the pay of the call members in the Dorchester District (with the exception of those attached to Engine 21, who do more duty and respond out of the district) should be

equalized or approximated to those of the West Roxbury members, and a reduction was decided on.

The petition of the Brighton call members was favorably considered, and the pay-rolls of the companies in the districts named were amended and reëstablished, as follows: —

Call members in the Dorchester District	$175 00	reduction	$50 00
Call Foreman in the Dorchester District	225 00	"	75 00
Call members in the West Roxbury District attached to the steamer and H. and L. Co.	150 00	advance	50 00
Call Foreman of H. and L. Co.	200 00	"	50 00
Call members of the Chemical Engines	75 00	"	25 00
Members of the Brighton District	75 00	"	25 00
Call Foreman of the Brighton District	125 00	"	25 00
Assistant enginemen in West Roxbury and Brighton Districts	1,100 00	"	100 00
Permanent drivers . . .	1,000 00	"	280 00

HOUSES.

The houses for the apparatus are in good condition, the necessary repairs being made by detail from the permanent force, as the need is made apparent. During the year the second story of Chemical Engine House No. 4, in Roslindale, formerly used for Primary-school purposes, has been vacated and turned over to this department by the Superintendent of Public Buildings; the premises have been fitted up at a small expense as a residence for the driver in charge, and is now occupied by him and his family, he paying rent therefor to the City Treasury. This house, in addition to the houses of Chemical Engines Nos. 2, 3, 5, 6, and 7, and Hose-house No. 6, pay into the City Treasury some $1,200 as rent; and it is the policy of the Board where one permanent man only is employed on a piece of apparatus, to fit up for his residence, when practicable, the upper portion of the house, in order to assure his immediate response at alarms of fire while at meals, and to avoid other absences that this occupancy would make unnecessary.

The access to the apartments are independent of the apparatus room and quite convenient, giving satisfaction to the tenants, and income to the city.

The House of Hook and Ladder No. 7, on the north side of Meeting-house Hill, in the Dorchester District, has been removed to the lot of land adjoining Engine-house No. 17, in which the horses were and are now stabled. An addition has been made to the apparatus room, giving ample room for the carriage and close proximity to the horses, which had heretofore been separated a distance of several hundred feet. This change obviates the delay that formerly took place and gives a prompt response to the required duty.

APPARATUS.

The apparatus of the department is the same as reported last year with the addition of two new fuel-wagons.

"Relief-valves" have been applied to 26 of the steamers in active service, and two to the "reserve;" those not having them will soon be supplied. This addition has proved successful in applying only as much water as may be needed in the extinguishment of fires, as it is by its construction made to allow a gate, or "shut-off," in the hose-pipe nozzle to be closed without stopping the working of the engine, and does away largely with the shouting of orders to stop the passing of water, and a large saving of damage by water is thus obtained, and little strain upon the hose is apparent. All of the Hose Companies are also supplied with these shut-off nozzles.

Nearly all the engines are furnished with "steam-heaters," which keep the water in their boilers at a boiling-heat, and in a few minutes can be raised to the requisite power for practical use; they are automatic in their construction, requiring but little care beside the feeding. All but three of these, as also the relief-valves, were made in the Department Repair Shop, and give entire satisfaction both in practice and in the economy of their application.

Engine No. 11 has been thoroughly repaired, a new boiler supplied, and it is now considered equal to a new one. Engine No. 5, now in the shop, is going through the same process, and will be of the same character when completed.

The apparatus of the department consists of —

	In service.	In reserve.	Total.
Steam fire-engines	29	3	32
Chemical "	7	1	8
Horse hose-carriages, used by engine companies	19		19
Horse hose-carriages used by independent companies	11	5	16

	In Service.	In Reserve.	Total.
Hose-carriages attached to engines .	11	16	27
Hook and ladder carriages fully equipped	11	1	12
Aerial ladder	1		1
Skinner ladder		1	1
Hand-engines		1	1
Coal wagons	18		18
Supply wagons, Fire Department .	2	1	3
Supply wagons, Fire-Alarm branch .	2		2
Engineers' wagons	4	2	6
Buggies	2		2
Hose pungs	35		35
Jobbing pungs	2		2
Engineers' sleighs	5		5

Two coal-wagons have been added during the year and are included above.

Two of the reserve engines, "Old 1" and "Old 7," condemned as unfit for further service some two years since, after being stored, awaiting a purchaser, have been broken up in the repair-shop, the parts suitable for use being retained and the remainder sold or exchanged for new material during the past year. "Old 9" was found to be unsafe for fire service, and by order of the Board was condemned, being, like the other two, impracticable to repair. Old No. 6, one of the reserve engines, being of a heavy class, and the department not needing its service, it was deemed advisable to dispose of it, as an opportunity to do so presented itself, and it was sold, leaving three for reserve use, all in good condition; and that number is believed to be ample for the purpose.

HOSE.

The hose during the year has been tested as to strength and fitness for service; all that would stand the pressure of 100 pounds to the square inch has been retained; those lengths that failed to do so have generally been condemned and laid aside to be sold as old material. In addition to that condemned as unfit for service, some 40 pieces, about 1,900 feet, were destroyed by the intense heat and falling of the walls of Holmes' furniture manufactory, in the Charlestown District, on the night of January 31.

The number of feet of hose on hand in use in the department is as follows: —

Rubber . .	14,783 feet.
Cotton . .	31,095 "
Leather . .	16,850 "

Chemical . .	3,381 feet.
Hand . .	2,578 "
Suction . .	823 "
Total .	69,510

Its proportional value being: reliable, 85 per cent; not fully reliable, 15 per cent.

HORSES.

The horses in the department, including 3 in the Fire-Alarm branch, number 137, and they are in good condition. There has been but little sickness and few injuries in proportion to the number and the service required of them; 2 have died, 11 have been exchanged, and 13 have been bought, (including those taken in exchange).

THE APPARATUS REPAIR-SHOP

is conducted on the same principles as formerly reported, almost the entire repairs for the Fire Department, Fire-Alarm Telegraph, Bells and Clocks, and Engine-houses, being done by nine permanently employed men, including machinists, blacksmiths, painter and wheelwright, assisted largely by skilled workmen detailed from the permanent force of the Fire Department, fully competent to perform the duties required of them. The work done will compare favorably with that of outside establishments of like character, and has proved very satisfactory both as to durability and cost. The amount charged on the books for its maintenance

is	$11,780 89
Less a credit of old material exchanged for new	392 68
Total	$11,388 21
Distributed as follows: —	
Repairs of apparatus	$7,907 43
Fire-Alarm Telegraph and Bells and Clocks .	1,491 96
Engine-houses and Hose and Harness Shop .	1,104 60
Tools and small supplies, Hydrants and Reservoirs	884 22

The total includes 10 per cent. allowed to cover waste and running account.

HOSE AND HARNESS SHOP.

The Hose and Harness Shop continues to make and repair the harnesses, and to repair the damaged hose, together with such other work as may come within its scope.

The cost of its maintenance in repairing hose is	$977 30
Less a credit for old material exchanged for new	187 18
	$790 12
Making new and repairing harnesses . .	1,509 58
Total	$2,299 70

FIRE-ALARM TELEGRAPH.

Occasional failures on some of the bells and gongs have given some cause for complaints, but measures have been taken to prevent a repetition, and it is hoped that no further trouble will be had in that direction.

In the last report it was stated that material had been purchased and arrangements made to extend the system to the Brighton District, add more boxes in the West Roxbury District, and connect with head-quarters, all of which has been done, and at this time all alarms are sounded from the Central Office at City Hall.

During the year —

	3	boxes have been placed in Brighton.
	3	" " " " " West Roxbury.
	4	" " " " " Charlestown.
	3	" " " " " Roxbury.
	1	" " " " " Dorchester.
	1	" " " " " So. Boston.
	6	" " " " " City Proper.
Total	21	

Arrangements are being made to place 6 more boxes in the Brighton District, and to connect the wires with the steam-whistle of the abbatoir, which will sound the number of the box in the same manner as is now sounded on the bells.

FIRES.

The city is still fortunate in being exempted from large losses consequent from fires; the number of alarms have slightly increased, though the loss on both buildings and contents has somewhat decreased. The only serious fire that threatened a conflagration occurred on the night of January 31, 1878, during the severest snow-storm experienced for many years, the wind blowing a gale from the north-east; the fire first appearing in an extensive furniture manufactory, some 300 feet in length and 6 stories in height.

The nature of its contents added volume to the flames, and before the apparatus could respond to the promptly given alarm, the upper stories were well on fire, and the structures on the opposite side of the street had begun to burn, threatening to carry destruction far and wide. The alarming appearance, so early in its beginning, prompted the district engineer to repeat the alarms with rapidity, and finally to strike the "General," which brought most of the apparatus from all parts of the city. Considering the driving storm and the consequent obstructed condition of the streets, the department responded with remarkable promptitude, and their energetic efforts stayed the flames from devastating a large territory, covered with frame buildings, consisting of dwellings, stables, work-shops, and manufactories, and threatening the destruction of the whole district. The number of buildings wholly destroyed was 9; partially destroyed, 13; the loss in the furniture manufactory and contents was $100,074; on other buildings, $23,150. The management and results reflected great credit on the department, and thanks are due for the valuable aid given by Engine No. 1 of Chelsea and two hose-carriages from Somerville, Chief Engineer Dyke of the former, and Chief Engineer Hopkins of the latter city giving their personal assistance in addition.

It is with pleasure that the Board direct your attention to the heroic acts of those who are depended on to protect the lives, as well as the property, of the citizens. On the evening of June 5, during a severe tempest, the tenement house, No. 50 Shawmut avenue, was discovered to be on fire in the entries and stairways, cutting off all egress to the street. The alarm was promptly sounded, and the department responded with their usual celerity, and soon enough to be able to save the lives, with one exception, of such of the occupants as had failed to ascend to the roof and gain safety on the adjoining building. Successful efforts were made by members of the department and by citizens to rescue these imperilled persons. The officers and members of Hook and Ladder Company No. 3 and Protective Company No. 2 rendered prominent service. Ladderman C. O. Poland and George M. Carr, of Hook and Ladder Company No. 3, also Assistant Foreman Huff and Privates Hitchcock and Packard, of Protective Company No. 2, are named as being conspicuous in their efforts.

Discharges and Appointments.

The changes in the department during the year are as follows: —

Deaths		2
Honorably discharged		28
Discharged for cause: —		
Conduct prejudicial to good order	1	
General inefficiency	1	
	—	2
Both of whom were of the permanent force.		
Total		32
Appointments		21
Transfers		10
Reduced to the ranks		2
Promotions		5

Deaths.

John H. Brown, of Hook and Ladder Co. No. 8.
Frederick A. W. Gay, of Hook and Ladder Co. No. 3.

Accidents.

The number of accidents is decreased from last year's statement, one of which proved fatal. While responding to an alarm of fire, Mr. F. A. W. Gay, a member of Hook and Ladder Co. No. 3, was caught between the door-post of the ladder-house and the hub of the wheel of the ladder carriage, and injured so severely that he died during the evening of the day of his injury. Mr. Gay was of excellent repute, faithfully performing his duty, cheerful in his manner, and friendly to those who came in his pathway of life; he had accumulated a moderate competency by his industry and economical habits, and his example was of a nature that helped to pleasantly pass the unoccupied or leisure hours of his associates. He was a man that the department could ill-afford to part with, and his memory will linger long and favorably in the recollections of his companions. Let his memoriam be, "He died in the Service of the Public."

CASUALTIES.

Companies.			Names.		Dates.			Nature of.

"	"	8	Horatio Ely,	Hostler	April	18,	"	Severely injured by being thrown from carriage.

POLICE.

The thanks of this department are due to the Chief and his force for the valuable service rendered from time to time.

A majority of the alarms are given by members of the Police, and with commendable promptness.

BOSTON PROTECTIVE DEPARTMENT.

The Protective Department is in the performance of the duty they were organized to perform, and they have during the year been successful in preventing large losses by fire and water.

WATER AND HYDRANTS.

The Water Board has continued to furnish the facilities needed for supplying water, and the city is at the present time well protected. During the year there has been 113 hydrants added, 31 of which are of the Lowry pattern; 52 Post; 39 Boston, and 1 Boston Y.

Comparative Cost without and with Water and Hydrant Account.

Yrs.	Fire Dep't.	F. Alarm Bells and Clocks.	Engine-houses.	Total.	Water & Hydrants.	Total.	Alarms.		Total Alarms.

EXPENSES OF THE DEPARTMENT.

The expenditures of the whole department are as follows: —

Fire Department, less Water and Hydrant account	$427,726 40
Fire-Alarm Telegraph	18,142 02
Bells and Clocks	2,485 36
Engine-houses	4,200 59
	$452,554 37
Add charge for Water and Hydrant account	120,930 00
Total	$573,484 37

The members of both the permanent and call forces cheerfully perform their allotted duties; the discipline and efficiency of the department are, we believe, improving, and we trust that the record given year by year will show that the care and expense of its maintenance is worthily bestowed.

The thanks of the Commission are due to the Committee on Fire Department for their hearty and cordial support of all measures adopted to increase the discipline and efficiency of the department.

DAVID CHAMBERLIN,
HENRY W. LONGLEY,
CHARLES H. ALLEN,

Fire Commissioners.

APPENDIX.

APPENDIX A.

Board of Fire Commissioners.

One member is appointed annually in April, for a term of three years from the first Monday in May following. The nomination is made by the Mayor, subject to confirmation by the City Council.

David Chamberlin, *Chairman*, for one year, from May, 1877. Re-appointed for a term of three years from May, 1878.

Greeley S. Curtis, for two years, from May, 1877. Resigned March 25, 1878.

Henry W. Longley, for three years, from May, 1877.

Charles H. Allen, for unexpired term of Greeley S. Curtis. Appointed April 1, 1878.

Salaries, $3,000 each.

Frederick W. Smith, Jr., *Clerk*. Appointed by the Fire Commissioners.

Engineers.

Chief Engineer, Wm. A. Green, 8 Montgomery place. Head-quarters, City Hall.

Assistant Engineers.

Joseph Dunbar,	Head-quarters,	Engine House		9.
John Bartlett,	"	"	"	27.
Wm. H. Cunningham,	"	"	"	25.
Samuel Abbott, Jr.,	"	"	"	4.
John W. Regan,	"	"	"	26.
George Brown,	"	"	"	1.
George C. Fernald,	"	"	"	3.
John Colligan,	"	"	"	13.
James Munroe,	"	"	"	12.
J. Foster Hewins,	"	"	"	18.

Brown S. Flanders, Inspector and Aid to the Chief. Head-quarters, Apparatus Repair Shop.

Call Engineers.

GRANVILLE A. FULLER, assigned to that part of District 8 located in Brighton.

JAMES F. ROGERS, assigned to that part of District 10 located in West Roxbury.

CLERKS.

B. F. Underhill, Jr., David L. Adamson.

FORCE.

The force, as now organized, consists of 628 members, viz.: —

Fire Districts.

The city is divided into Ten Fire Districts, as follows: —

District 1.— Comprises all that part of Boston known as East Boston.

District 2.— All that part of Boston formerly known as Charlestown.

District 3.— All that part east of a line beginning at the Charles-river drawbridge, and running through the centre of Charlestown street, Haymarket square, and Washington to Summer street, and north of Summer street and the N.Y. and N.E.R.R. Passenger Depot to the water.

District 4.— All that part west of District 3, and north of a line running through the centre of Winter and Park streets, and west of Beacon to Otter, and north of Otter street to the water.

District 5.— All that part south of Districts 3 and 4 to the centre of Dover-street drawbridge, and a line running through the centre of Dover, Berkeley, Boylston, Arlington, Beacon, and Otter streets to the water.

DISTRICT 6.—All that part of Boston known as South Boston.

DISTRICT 7.—All that part of Boston south of District 5, to the centre of Albany-street drawbridge; thence through the centre of Albany, Northampton street, Columbus avenue, and Chester park, to Charles river.

DISTRICT 8.—All that part south and west of District 7, to the boundary line, of West Roxbury, and west of Washington street to the Brookline boundary line, and including all of Ward 25 formerly Brighton.

DISTRICT 9.—All that part south of Districts 6 and 7, to West Roxbury line, running through the centre of Blue Hill avenue, Columbia, Green, Bowdoin, Church, and East streets, and east of District 8 to the water.

DISTRICT 10.—All the southerly part of Boston, south of Districts 8 and 9, including West Roxbury.

ASSIGNMENT OF DISTRICTS.

Each district is placed under the charge of an Assistant Engineer, as follows:—

District.	Engineer in Command.	Companies in District.			
		Engines.	Chem. Engines.	Hook and Ladder.	Hose.
1	Joseph Dunbar	5, *9, 11	. .	2	6
2	John Bartlett	*27	. .	9	1, 2, 3, 4,
3	Wm. H. Cunningham .	8, *25, F.B.	. .	8 Aerial	. .
4	Samuel Abbott, Jr. . .	*4, 6, 10	1	1	8
5	John W. Regan . . .	7, *26	2	. .	. .
6	George Brown.	*1, 2, 15	. .	5	9, 10, 12,
7	George C. Fernald . .	*3, 22, 23	. .	3	5
8	John Colligan	*13, 14, 29	3, 6,	11	7
9	James Munroe	*12, 21, 24	5	4	. .
10	J. Foster Hewins . . .	16, 17, *18, 19, 20, 28	4, 7,	6, 7, 10,	. .

* Head-quarters of District Engineer.

The Assistant Engineers of the several Fire Districts in the city will respond to alarms out of their own districts, as follows:—

The Engineer of
DISTRICT No. 1. } To *second* alarms in Nos. 3 and 4.
To *third* alarms in No. 5.

DISTRICT No. 2.— To *second* alarms in Nos. 3 and 4.
To *third* alarms in No. 5.

DISTRICT No. 3.— To *first* alarms in Nos. 4, 5, and to East Boston Ferry for No. 1.

DISTRICT No. 4.— To *first* alarms in Nos. 2, 5, and that part of No. 7 west of Columbus avenue.
To *third* alarms in No. 7.

DISTRICT No. 5.— To *first* alarms in Nos. 3, 4, 6, and 7.
To *third* alarms in Nos. 1 and 2.

DISTRICT No. 6.— To *first* alarms in No. 6, and all that part of Nos. 5 and 7 east of Washington street.
To *third* alarms in Nos. 5, 7, and 9.

DISTRICT No. 7.— To *first* alarms in Nos. 5, 6, and in Nos. 8 and 9 north of Dudley and Stoughton streets.
To *second* alarms in Nos. 8 and 9, and parts of Nos. 3 and 4 south of State, Court, and Cambridge streets.
To *third* alarms in Nos. 3, 4, 8, and 9.

DISTRICT No. 8.— To *first* alarms in Nos. 7, 9, and Jamaica Plain.
To *second* alarms in No. 10.
To *third* alarms in Nos. 5 and 6.

DISTRICT No. 9.— To *first* alarms in Nos. 7, 8, and Dorchester.
To *second* alarms in Nos. 6 and 10.

DISTRICT No. 10.— To *first* alarms in Nos. 9 and 10.
To *second* alarms in No. 6, and that part of No. 8 east of the Providence Railroad.
To *third* alarms in all of No. 8.

No piece of apparatus belonging to the Department will be allowed out of the city without the authority of the Chief or an Assistant Engineer.

Engines Nos. 4, 9, 25, and 26 are never to be sent out of the city.

Engine No. 5 is never to cross the ferry, unless specially sent for.

Pungs.

There are 39 pungs in use by the department, — 35 for carrying hose and 2 for jobbing, and 2 for Fire Alarm Department.

The Engines, Hose, Hats, Axes, Ladders, and all the other apparatus used by the Fire Department, are owned by the city, and are under the care and control of the Board of Fire Commissioners.

Coal Houses.

No. 1 is located on Salem street. This house is in good repair, and supplies for the north and west sections of the city are taken from it in case of a large fire.

No. 2 is located on Washington street, near Dover street.

No. 3 is located on Orleans street, East Boston. From this house, in case of fire, supplies are taken for the East Boston department.

Supply Wagons.

No. 1. Kept at Hose-house No. 8, North Grove street.

No. 2. Kept at house of H. & L. Co. No. 3, Harrison avenue, corner of Bristol street.

No. 3. In reserve. Kept at house of Engine Co. No. 22, Dartmouth street.

Spare Apparatus.

One hose carriage at the Apparatus Repair Shop, on Harrison avenue, with 600 feet of hose.

One hose carriage, with 400 feet of 2½-inch hose, in building on Nawn street, owned by Owen Nawn.

One hose carriage, with 1,000 feet of 2½-inch hose, Engine House No. 25, Fort Hill square, to be used in cases of large fires.

Deer Island. One hand engine, with two hose carriages and 700 feet of rubber and cotton hose, belonging to the Fire Department, and stored here, to be used by the convicts, if required.

At each of the above places are the needful wrenches, goosenecks, and pipes to be used with the hose.

Steam Fire Engine known as Relief A, also Mystic No. 1, and one formerly known as No. 2.

Hose Carriages, known as Relief A, B, C, and D.

One third-class Hand Engine in store at Hose House No. 7.

During the year Steam Fire Engines formerly known as Nos. 1, 7, and 9 have been condemned; and one known as No. 6 has been sold.

One hand Engine from Old Hand Engine House, West Roxbury District, has been sold.

HYDRANTS.

During the year 113 Hydrants have been established and 16 abandoned, as follows: —

Originated in basement.
Cause, supposed incendiary.
First company at fire, Hose No. 9.
Force under command of Foreman Byrnes.
Company present, Hose No. 9.
Damage to building, slight.
Confined to building.
Extinguished with buckets of water.

Wednesday. 24th. 2.28 p.m. Box 62. Given by Citizen.

No. 6 Townsend Place. Three stories high; size, 18 × 21. Material, brick.
Owned by B. Royce.
Occupied by W. Wright *et als.*, as dwelling.
Cause, dropping empty lamp.
First company at box, Engine No. 26.
Force under command of Chief Engineer Green.
Number of engineers present, 6.
Companies present, Engine Nos. 3, 7, 10, 22, 26; Chemical Engine Nos. 1, 2; Hook and Ladder Nos. 3, 8; Hose Nos. 5, 8.
Damage to building, none.
Needless alarm; no fire.

APRIL.

THURSDAY. 25th. 10.41 A.M. Box 6. Given by Citizen.

No. 32 BRIGHTON ST. Three stories high; size, 23 × 57. Material, wood.
OWNED by B. Roach.
OCCUPIED by Mr. Mulligan, as dwelling.
Loss on building, $25. INSURANCE on building, $2,000.
ORIGINATED on 2d floor.
CAUSE, children playing with matches.
FIRST COMPANY AT FIRE, Engine No. 6.
FIRST WATER, Engine No. 6.
FORCE UNDER COMMAND of Chief Engineer Green.
NUMBER OF ENGINEERS PRESENT, 5.
COMPANIES PRESENT, Engine Nos. 4, 6, 8, 10; Chemical Engine No. 1; Hook and Ladder No. 1; Hose No. 8.
DAMAGE to building, slight.
CONFINED to building.
EXTINGUISHED by regular force.

THURSDAY. 25th. 8.49 P.M. Box 57. Given by Citizen.

No. 178 HARRISON AVE. Four stories high; size, 22 × 75. Material, brick.
OWNED by Dr. N. K. Hartnett.
OCCUPIED by Dr. N. K. Hartnett, as dwelling.
Loss on building, $425. INSURANCE on building, $12,000.
Loss on contents, $237. INSURANCE on contents, $6,000.
ORIGINATED in basement.
CAUSE, rats and matches.
FIRST COMPANY AT FIRE, Engine No. 26.
FIRST WATER, Chemical Engine No. 2.
FORCE UNDER COMMAND of Chief Engineer Green.
NUMBER OF ENGINEERS PRESENT, 7.
COMPANIES PRESENT, Engine Nos. 3, 7, 15, 25, 26; Chemical Engine Nos. 1, 2; Hook and Ladder Nos. 3, 8; Hose No. 9.
DAMAGE to building, slight.
CONFINED to building.
EXTINGUISHED by Chemical Engine.

MONDAY. 29th. 10.39½ P.M. Box 351. Given by Citizen.

DORCHESTER AVE. One story high; size, 40 × 60. Material, brick.
OWNED by Catholic Church Association.
OCCUPIED by Catholic Church Association, as church.
Loss on building, $1,000. INSURANCE on building, $30,000.
Loss on contents, $600.
ORIGINATED in basement. Extended to 1st floor.
CAUSE, being struck by lightning.
FIRST COMPANY AT FIRE, Engine No. 16.
FIRST WATER, Engine No. 16.
FORCE UNDER COMMAND of Engineer Hewins.
NUMBER OF ENGINEERS PRESENT, 2.
COMPANIES PRESENT, Engine Nos. 16, 18, 19, 20; Hook and Ladder No. 6.
DAMAGE to building, considerable.
CONFINED to building.
EXTINGUISHED by regular force.

[1] The losses and insurance of the great fire of the 9th of November, 1872, are not included in the above table. The amount of property destroyed can be set down at $75,000,000; the area, 65 acres; buildings destroyed, 776, of which 709 were brick and stone, and 67 wood.

APPENDIX B.

FIRE-ALARM TELEGRAPH.

The Ordinance to establish a Fire Department, passed in October, 1873, placed the Fire-Alarm Telegraph and the public bells and clocks under the charge of the Board of Fire Commissioners. The force employed is as follows: —

Superintendent.

John F. Kennard.

Operators.

Cyrus A. George,
Charles M. Chaplin,
Granville S. Mendell,
Uzziel Putnam.

Repairers.

George S. Thom,
Adam McAfee,
Wm. H. Godfrey.

Batteryman.

Wm. B. Green.

A constant watch is kept at the head-quarters, City Hall, night and day, by the operators. Each operator serves two alternate terms, of three hours each as principal, and the same as assistant operator; so that twelve hours' service at the office, out of every twenty-four, is required from each operator. No operator is permitted to sleep during his watch, unless expressly relieved by some one else, and by consent of the Superintendent.

Each operator is accountable to the Superintendent for any mistakes that may occur at the office during his hours of duty.

An accurate account is kept of the time of giving each alarm, and of the station from which it originates, and all other necessary information.

The wires to East Boston pass through Chelsea, and a box and gong have been placed in the City Marshal's office of Chelsea, and connected with them, in order that aid may be promptly summoned, by either city, in case of need.

The following notice is printed with the numbers of the boxes and circulated among the citizens, for the purpose of instructing them as to the manner of giving alarms and cau-

tioning holders of signal keys in regard to the use of such keys.

The fact that an alarm-box is located near their residence, and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The Board of Fire Commissioners recommend to all persons who may see this notice, that they make the necessary inquiries to enable them, in case of need, either to get the key and pull the box, or to direct others to do so. *Time* saved in this way may sometimes prevent a conflagration.

In case of fire, follow these

DIRECTIONS.

Get the key to the nearest box to the fire.

Open the box — pull the hook all the way down once, and let go.

Wait *one full minute* for the sound of the bells.

If you hear no sound *pull again*, and the *third* time if you get no sound.

If you fail the third time, go to the next nearest box and do the same there; but do not touch any other box if the nearest one gives the alarm.

After giving the alarm remain a while if *possible* by the box, so as to direct the firemen to the fire.

CAUTIONS TO PERSONS HOLDING SIGNAL KEYS.

1. Never open the box or touch the apparatus except in case of fire.
2. Never sound the alarm for fire seen at a distance.
3. Be reasonably sure there is a fire before sounding the alarm.
4. Be sure your box is locked before leaving it.
5. Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.
6. If you remove from your house or place of business, return the key to the Fire-Alarm Office without delay.

REGULATIONS CONCERNING FIRE ALARMS.

First Alarm to be given by striking three or more rounds.

Second Alarm to be given on all the circuits by striking ten blows, followed by the box number.

Third Alarm to be given on all the circuits by striking twelve blows twice, thus: 12–12.

General Alarms to be given on all the circuits by striking twelve blows three times, thus: 12–12–12.

In cases where Hook and Ladder Companies *only* are wanted, signal to be given by striking ten blows once, with the No. of the Company struck twice, thus: H. & L. No. 1, 10–1–1; H. & L. No. 2, 10–2–2, etc.

If more than one Hook and Ladder Company, the signal will be given thus: H. & L. Nos. 1 and 3, 10–1–1–3–3; H. & L. Nos. 2 and 4, 10–2–2–4–4, etc.

In case of second and third alarms, the "tappers" in all the houses of the apparatus will be struck 2–2 twice when *fire is out.* The order for this signal to be given by the officer in command, at the earliest practicable moment.

Return signal.—Notice will be given on the Bells and Gongs, one blow four times, thus: 1–1–1–1, hearing which the several Apparatus on the way to the fire will return to their quarters.

CHARLESTOWN DISTRICT.

All alarms from boxes in *Districts* 1, 2, 3, 4, 5, and 7, will be struck in Charlestown in the same manner as they are struck elsewhere.

Alarms from boxes in *Districts* 6, 8, 9 and 10, will be given in Charlestown as follows, viz.: —

First Alarms not struck.
Second Alarms, by striking ten blows, followed by the box number.
Third and General Alarms, by striking in the usual manner.

All alarms from boxes in *Charlestown* will be struck in Districts 1, 2, 3, 4, 5, and 7, in the usual manner.

In Districts 6, 8, 9, and 10, alarms from boxes in *Charlestown* will be given as follows, viz.: —

First Alarms not struck.
Second Alarms, by striking ten blows, followed by the box number.
Third and General Alarms, by striking in the usual manner.

WEST ROXBURY DISTRICT.

First Alarms will be struck upon the bells south of Northampton street only.

Second Alarms will be given by striking ten blows on all the bells, followed by the box number.

Third and *General Alarms*, in the usual manner.

Brighton District.

The *First Alarm* will not be struck upon the bells outside the District, but a message be sent from the Fire Alarm Office, by Dial Line, to Dist. Engineer Colligan.

The *Second Alarm* will be given by striking ten blows, followed by the box number on all the bells.

Third and *General Alarms*, in the usual manner.

But the General Alarm will not be struck without special orders from the Chief Engineer.

Chelsea Alarms.

The call *upon* Chelsea will be given by striking upon the Charlestown and East Boston circuits the box number 198, *four* rounds.

The calls *from* Chelsea upon this department will be given by striking upon all the circuits of the city the box number 198, *three* rounds; the same for 1st, 2d, and 3d alarms.

Deer Island.

189 struck three times on the East Boston circuit and the Fire-Boat Gong.

School Signal.

22 struck three times on all the bells.

Police Call.

Eleven blows struck three times on all the bells.

Special Regulations.

Members of companies of the "Call Force" shall report at the houses of their respective companies, and remain there twenty minutes, whenever second alarms are sounded from boxes to which their companies would respond on third alarms.

Members of the several companies of the department, call as well as permanent, must remain in their respective districts when a fire is in progress in any other district, unless the apparatus to which they are attached is called thither. The necessity for this requirement must be evident in view of the possibility of two or more fires occurring at the same time in different parts of the city.

CHELSEA ALARMS.

Upon the *first* call from Chelsea, Engine Co. No. 5 will go directly; Engine Co. No. 8 will go to Chelsea Ferry and cross in the ferry-boat, waiting till it comes if it is not there on their arrival; Hose Co. No. 4 will go by Chelsea Bridge, and Assistant Engineer Dunbar will go in command; Hose Co. No. 3 will move and take position in the house of Hose Co. No. 4.

On the *second* call from Chelsea, Engine Co. No. 11 will go directly; Engine Co. No. 10 and Hook and Ladder Co. No. 8 will go to Chelsea Ferry and cross in the ferry-boat, waiting till it comes, if it is not there on their arrival; Hose Co. No. 1 will go by Chelsea Bridge; Assistant Engineer Cunningham will report to the Chief Engineer of Chelsea.

On the *third* call from Chelsea, Engine Cos. Nos. 7 and 26 will go to Chelsea Ferry and cross in the Ferry-boat. Engine Co. No. 22 will take position in the house of Engine Co. No. 26.

DEER ISLAND ALARMS.

On notice of a fire at Deer Island, the Superintendent of Fire Alarms is directed to strike 189 on the East Boston Circuit and the Fire-Boat Gong. He will also notify the Chief Engineer by special message.

Engine Co. No. 5, Hose Co. No. 6, and the Fire Boat are hereby directed to respond; the Engine and Hose Companies going by land to Winthrop Point.

Assistant Engineer Dunbar will go in command.

There are 262 Signal Stations or Boxes, and the accompanying "*Running Card*" shows the location of each Box, and also the companies responding to 1st, 2d, and 3d alarms from the several Boxes.
